

Igor Fernando Casita

Full Stack Developer & AI Engineer | +55 (11) 93044-2308 |

igorf.casita@gmail.com | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building AI-powered, web, and mobile applications using **React (DOM & Native)**, **Spring Boot (Java)**, **NestJS (Node.js)**, and **Django Ninja (Python)**. Experienced in designing and developing production-ready REST APIs, working with both monolithic and microservices architectures, and following **Agile development methodologies**.

Strong background in Applied **AI Engineering**, including **Python automation**, **AI agents**, **LLM-based applications**, workflow orchestration with n8n, and scalable integrations between **APIs**, **cloud services**, and **business processes**. Experience developing AI-assisted solutions using **Claude (Code, Design & Science)** and **Cursor** to accelerate software engineering workflows.

Additional experience in **Data Science**, using **Python**, **Pandas**, **NumPy**, **ETL pipelines**, and **data visualization**, as well as Bioinformatics through the development of a **Laboratory Information Management System (LIMS)**. Personal projects include genomic sequence analysis with **Biopython**, protein structure prediction using **ESMFold**, and generative **AI-assisted** clinical reporting.

PROFESSIONAL EXPERIENCE

Full Stack Development Intern

Engineering Brasil (ENGDB)

Apr 2026 – Present

São Paulo, São Paulo

- Development and maintenance of full stack applications in **Java**, **Python**, **React** and other stacks.
- Implementation of features and bug fixing.
- Support in the creation and consumption of **REST APIs**.
- Integration with **SQL** databases and use of **Git**.
- Collaboration with the development team.
- Use of Agentic AI with Skills for programming, such as **Claude Code** and **Cursor**.
- Use of the **SDD (Spec-Driven-Development)** development methodology.

Software Programmer (Volunteer)

ETEC Taboão da Serra

Feb 2024 – Feb 2026

Taboão da Serra, São Paulo

- Developed a full-stack system for managing the school's academic and administrative data.
- Built the front-end in **React** and RESTful **Node.js/Express APIs** with a scalable and secure architecture.
- Modeled and maintained the **SQL** database using **MySQL**, ensuring integrity and performance.
- Implemented parallel data processing for attendance control and scheduling.

EDUCATION

Bachelor's Degree in Information Systems

Universidade de São Paulo (USP)

2026 - Present

USP Leste, São Paulo

Technical High School Diploma in Systems Development

ETEC Taboão da Serra

2023 - 2025

Taboão da Serra, São Paulo

PROJECTS

BioTech LIMS | Django, Python, HTMX, GenAI, ESMFold, Molstar, BioPython

Feb 2026 – Feb 2026

- Developed and architected a scalable Laboratory Information Management System (**LIMS**) to optimize bioinformatics workflows, managing patient metadata and genomic sequences.

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorf.casita@gmail.com | [linkedin.com/in/igor-fernando-casita](https://www.linkedin.com/in/igor-fernando-casita) | igorfcfs.github.io/Portfolio

- Designed a reactive, no-page-reload interface by integrating **HTMX** with **Django**, achieving **Single Page Application (SPA)** performance while maintaining backend robustness.
- Integrated Meta AI's **ESMFold** and the **RCSB Protein Data Bank (PDB)** API to enable 3D protein structure prediction and interactive visualization directly in the browser.
- Used **Google Gemini** artificial intelligence to automate clinical analyses and genomic diagnostic reports, extracting actionable insights from raw biological data.
- Built a processing engine for **FASTA** files, automating essential biological calculations such as **GC content**, sequence length and protein translation.

ECOTECH - (ETEC Capstone Project) | React Native, JavaScript, Node.js, Express, IoT, GenAIFeb 2024 – Dec 2025

- Developed a **Node.js** API to manage e-waste recycling events, users and scoring.
- Integrated **IoT** sensor data (weight measurement) to record recycling transactions in real time.
- Modeled business rules for point calculation by waste category and weight (data accuracy).
- Implemented real-time workflows and offline sync using **Firestore** and **Cloud Functions**.
- Integrated **Generative AI** to analyze and estimate the actual mass in grams of images of electronic waste captured through a camera.

TECHNICAL SKILLS

Programming Languages | Java, Python, SQL, JavaScript, TypeScript, C, C++, C#

Backend Development | Spring Boot, Spring Framework, Java EE (Jakarta EE), Spring Data JPA, Hibernate, Node.js, NestJS, Express.js, Django, Django Ninja, Flask

Frontend Development | React (DOM & Native), Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Design

Content Management Systems (CMS) | WordPress, Sanity CMS

Artificial Intelligence & Applied AI | AI Agent Development, LLM Integration (OpenAI, Google Gemini, Anthropic Claude), Retrieval-Augmented Generation (RAG), Prompt Engineering, Tool Calling / Function Calling, Workflow Automation (n8n), AI-Assisted Development (Claude Code, Cursor)

API Development & Integration | RESTful APIs, OpenAPI/Swagger, JSON, Postman, Insomnia, API Integration, Webhooks

Databases & Data Storage | PostgreSQL, MySQL, SQLite, MongoDB, Firebase (Authentication & Firestore), Prisma ORM, Sequelize ORM

Cloud, DevOps & Development Tools | Docker, Docker Compose, Git, GitHub, Linux, Maven, Gradle, Visual Studio Code, IntelliJ IDEA, PyCharm, Eclipse/STS

Data Science & Analytics | Python (Pandas, NumPy), SQL, ETL Pipelines, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Jupyter Notebook, Google Colab, OpenPyXL, Microsoft Excel (Advanced), Power BI

Bioinformatics & Computational Biology | Biopython, FASTA File Processing, Genomic Sequence Analysis, GC Content Analysis, DNA/RNA/Protein Sequence Translation, Protein Structure Prediction (ESMFold – Meta AI), RCSB Protein Data Bank (PDB) API, Molecular Visualization (Mol*), Laboratory Information Management Systems (LIMS), Claude Science

Software Architecture & Design | Monolithic Architecture, Microservices Architecture, REST Architecture, C4 Model (Context, Container, Component & Code), UML (Class, Sequence, Activity, Use Case & Object Diagrams), Object-Oriented Programming (OOP), Design Patterns, SOLID Principles

Software Engineering & Testing | Agile Development, Scrum, Kanban, Lean IT, eXtreme Programming (XP), Hybrid Methodologies (Waterfall + Agile), Software Documentation, Technical Writing

Design & Prototyping | Figma, Microsoft Word, Microsoft PowerPoint, Claude Design

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorfcasita@gmail.com | [linkedin.com/in/igor-fernando-casita](https://www.linkedin.com/in/igor-fernando-casita) | igorfcfs.github.io/Portfolio

SOFT SKILLS

Communication | Proficiency in English for technical documentation and collaboration with international teams.

Technical Communication | Ability to understand business demands and support their translation into technical solutions, using diagrams (C4/UML) to aid communication.

Remote Collaboration | Experience with asynchronous communication, using Teams, Slack, Jira, Trello and Notion to maintain workflow transparency.

Adaptability | Ability to move between different stacks and methodologies according to requirements.

Teamwork & Mentoring | Collaborative work in agile squads, participating in code reviews and sharing technical knowledge.

LANGUAGES

English – Advanced – C1 Level | Cambridge English Jul, 2026

Spanish – Basic – A1 Level

Brazilian Portuguese – Fluent (Native)

CERTIFICATIONS

Oracle Fusion AI Agent Studio Certified Foundations Associate (1Z0-1145-1) | Oracle Jul, 2026

Oracle Agentic AI Foundations Associate (1Z0-1157-26) | Oracle Jul, 2026

Claude Courses | Anthropic Jun, 2026

CS50's Introduction to Computer Science | Harvard University Feb, 2026

Oracle Cloud Infrastructure 2024 Generative AI Professional (1Z0-1127-24) | Oracle Jul, 2024

Oracle Cloud Infrastructure 2023 AI Foundations Associate (1Z0-1122-23) | Oracle Jul, 2024

Oracle Certified Associate Java SE 8 Programmer I (1Z0-808) | Oracle Aug, 2023

Python Certified Associate Certified Associate in Python Programming | Oracle Feb, 2022
