

# Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | [igorf.casita@gmail.com](mailto:igorf.casita@gmail.com) | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

## PROFESSIONAL SUMMARY

Junior Developer with hands-on experience developing web and mobile applications using **React (DOM & Native)**, **Spring Boot (Java)**, **NestJS (Node.js)** and **Django Ninja (Python)**. Experienced with agile methodologies, consuming/developing **REST APIs** and working on both monolithic and microservices-based systems. Experience in automation with **Python**, development of artificial intelligence agents and creation of automated workflows with **n8n**, integrating APIs, services and business processes in a scalable way. Development and academic work experience with **Claude (Code, Design & Science)** and **Cursor**. Complementary work in data science (**Python**, **Pandas**, **NumPy**, **ETL** and visualization) and bioinformatics, with a personal **LIMS** project involving genomic sequence analysis, **Biopython**, protein structure prediction with **ESMFold** and clinical reports assisted by generative AI.

## PROFESSIONAL EXPERIENCE

### Full Stack Development Intern

Engineering Brasil (ENGDB)

Apr 2026 – Present

São Paulo, São Paulo

- Development and maintenance of full stack applications in **Java**, **Python**, **React** and other stacks.
- Implementation of features and bug fixing.
- Support in the creation and consumption of **REST APIs**.
- Integration with **SQL** databases and use of **Git**.
- Collaboration with the development team.
- Use of Agentic AI with Skills for programming, such as **Claude Code** and **Cursor**.
- Use of the **SDD (Spec-Driven-Development)** development methodology.

### Software Programmer (Volunteer)

ETEC Taboão da Serra

Feb 2024 – Feb 2026

Taboão da Serra, São Paulo

- Developed a full-stack system for managing the school's academic and administrative data.
- Built the front-end in **React** and RESTful **Node.js/Express APIs** with a scalable and secure architecture.
- Modeled and maintained the **SQL** database using **MySQL**, ensuring integrity and performance.
- Implemented parallel data processing for attendance control and scheduling.

## EDUCATION

### Bachelor's Degree in Information Systems

Universidade de São Paulo (USP)

2026 - Present

USP Leste, São Paulo

### Technical High School Diploma in Systems Development

ETEC Taboão da Serra

2023 - 2025

Taboão da Serra, São Paulo

## PROJECTS

### BioTech LIMS | Django, Python, HTMX, GenAI, ESMFold, Molstar, BioPython

Feb 2026 – Feb 2026

- Developed and architected a scalable Laboratory Information Management System (**LIMS**) to optimize bioinformatics workflows, managing patient metadata and genomic sequences.
- Designed a reactive, no-page-reload interface by integrating **HTMX** with **Django**, achieving **Single Page Application (SPA)** performance while maintaining backend robustness.
- Integrated Meta AI's **ESMFold** and the **RCSB Protein Data Bank (PDB)** API to enable 3D protein structure prediction and interactive visualization directly in the browser.

# Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | [igorfcasita@gmail.com](mailto:igorfcasita@gmail.com) | [linkedin.com/in/igor-fernando-casita](https://www.linkedin.com/in/igor-fernando-casita) | [igorfcfs.github.io/Portfolio](https://igorfcfs.github.io/Portfolio)

- Used **Google Gemini** artificial intelligence to automate clinical analyses and genomic diagnostic reports, extracting actionable insights from raw biological data.
- Built a processing engine for **FASTA** files, automating essential biological calculations such as **GC content**, sequence length and protein translation.

**ECOTECH - (ETEC Capstone Project)** | React Native, JavaScript, Node.js, Express, IoT, GenAIFeb 2024 – Dec 2025

- Developed a **Node.js** API to manage e-waste recycling events, users and scoring.
- Integrated **IoT** sensor data (weight measurement) to record recycling transactions in real time.
- Modeled business rules for point calculation by waste category and weight (data accuracy).
- Implemented real-time workflows and offline sync using **Firebase Firestore** and **Cloud Functions**.
- Integrated **Generative AI** to analyze and estimate the actual mass in grams of images of electronic waste captured through a camera.

## TECHNICAL SKILLS

---

**Programming Languages** | Java, SQL, Python, JavaScript/TypeScript, C/C++, C#

**Backend & Frameworks** | Spring Boot, JavaEE, JPA, Hibernate, Node.js, Express.js, Django, Flask

**Frontend & CMS** | HTML5, CSS3, React (DOM & Native), Next.js, Bootstrap, Tailwind, WordPress, Sanity

**Databases & ORMs** | PostgreSQL, MySQL, SQLite, MongoDB, Firebase, Prisma, Sequelize

**DevOps & Tools** | Maven, Gradle, Docker, Git, GitHub, Visual Studio Code, PyCharm, Eclipse/STS

**API Development & Testing** | REST APIs, Swagger/OpenAPI, Postman, Insomnia

**Data Science & Analytics** | Python (Pandas, NumPy), SQL, Jupyter/Colab, ETL and data cleaning, exploratory analysis, visualization, OpenPyXL, advanced Excel, Power BI

**AI & Automation** | AI agent development, LLM API integration (Google Gemini, OpenAI), prompt engineering, RAG, agentic AI for code (Claude Code & Cursor), workflow automation with n8n, RPA with Selenium and PyAutoGUI

**Bioinformatics** | Biopython, FASTA file processing, genomic sequence analysis (GC content, protein translation), protein structure prediction with ESMFold (Meta AI), RCSB Protein Data Bank (PDB) API, 3D molecular visualization with Mol\*, LIMS and sample metadata management

**Architecture & Prototyping (Design)** | C4 Model (Context, Container, Component, Code), UML (Unified Modelling Language – Sequence, Activity, Use Case, Class, Object), Word, PowerPoint, Figma

**Agile Methodologies** | Scrum, Kanban, Lean IT, eXtreme Programming (XP), Hybrid (Waterfall + Agile)

## SOFT SKILLS

---

**Communication** | Proficiency in English for technical documentation and collaboration with international teams.

**Technical Communication** | Ability to understand business demands and support their translation into technical solutions, using diagrams (C4/UML) to aid communication.

**Remote Collaboration** | Experience with asynchronous communication, using Teams, Slack, Jira, Trello and Notion to maintain workflow transparency.

**Adaptability** | Ability to move between different stacks and methodologies according to requirements.

**Teamwork & Mentoring** | Collaborative work in agile squads, participating in code reviews and sharing technical knowledge.

## LANGUAGES

---

**English – Advanced – C1 Level** | Cambridge English

Jul, 2026

**Spanish – Basic – A1 Level**

**Brazilian Portuguese – Fluent (Native)**
