

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorf.casita@gmail.com | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience in building web and mobile applications using React (DOM & Native), **Spring Boot (Java)**, Express (Node.js), and Django (Python). Experienced with agile methodologies, designing and consuming **REST APIs**, and working with both monolithic and microservices architectures. Background in Python **automation**, development of AI agents, and creation of automated workflows using **n8n**, integrating APIs, services, and business processes in a scalable way.

WORK EXPERIENCE

Java Development Intern
Engineering Brasil

Abr 2026 – Presente
São Paulo, São Paulo

- Development and maintenance of backend applications in Java
- Implementation of features and bug fixing
- Support in building and consuming REST APIs
- Integration with SQL databases and use of Git
- Collaboration with the development team

Software Developer (Volunteer)
Employer

Feb 2024 – Feb 2026
Taboão da Serra, São Paulo

- Developed a full-stack system for managing academic and administrative school data
- Built front-end using React and RESTful APIs with Node.js/Express with a scalable and secure architecture
- Designed and maintained the SQL database using MySQL, ensuring data integrity and performance
- Implemented parallel data processing for attendance tracking and scheduling.

EDUCATION

Bachelor's Degree in Systems Information
Universidade de São Paulo (USP)

2026 - Present
USP Leste, São Paulo

Technical High School in Software Development
ETEC Taboão da Serra

2023 - 2025
Taboão da Serra, São Paulo

PROJECTS

A.T.L.A.S. | n8n, Next.js, TypeScript, Sanity, OpenAI, Supabase

Mar 2026 – Present

- Developed and deployed AI agents using n8n to automate business and marketing operations
- Integrated Notion, Slack, and vector databases (Supabase) to centralize company knowledge and enable RAG-based responses, creating a personal AI assistant
- Built a Headless Funnel Engine using Next.js, Sanity, and TypeScript to dynamically generate landing pages, upsells, and downsells from interactive form data
- Implemented SSR (Server-Side Rendering) and ISR (Incremental Static Regeneration) for fast loading
- Developed front-end retention strategies, including exit-intent prevention, intelligent lazy loading, persistent scarcity timers, and user state management to maximize LTV and conversion
- Reduced infrastructure costs by enabling dynamic creation of unlimited funnels with standardized layouts
- Automated video and content publishing for Blog, Instagram, YouTube, and TikTok using AI.

BioTech LIMS | Django, Python, HTMX, GenAI, ESMFold, Molstar, BioPython

Fev 2026 – Feb 2026

- Developed and architected a scalable **Laboratory Information Management System (LIMS)** to streamline **bioinformatics workflows**, managing patient metadata and **genomic sequences**.

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorf.casita@gmail.com | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

- Engineered a reactive, "no-reload" user interface by integrating HTMX with Django, achieving Single Page Application (SPA) performance while maintaining backend simplicity.
- Integrated Meta AI's ESMFold and the RCSB Protein Data Bank (PDB) API** to enable real-time 3D protein structure prediction and interactive visualization within the browser.
- Leveraged **Google Gemini AI** to automate clinical analysis and **genomic diagnostic reporting**, providing researchers with AI-driven insights from **raw biological data**.
- Built a robust backend for FASTA file processing**, automating complex calculations such as GC content, sequence length, and protein translation.

ECOTECH - (ETEC's Capstone Project) | React Native, Express, Firebase, IoT, GenAI **Feb 2024 - Dec 2025**

- Built a **Node.js + Express REST API** to process e-waste recycling events, user data, and scoring logic.
- Integrated **IoT sensor data** (smart bin, weight measurement) to record recycling transactions in real time.
- Designed **business rules for point calculation** based on waste category and weight.
- Implemented **real-time and offline-sync workflows** using **Firebase Firestore** and **Cloud Functions**.

TECHNICAL SKILLS

Programming Languages | Java, SQL, Python, JavaScript/TypeScript, C/C++, C#

Backend & Frameworks | Spring Boot, Java EE, JPA, Hibernate, Node.js, Express.js, Django, Flask

Frontend & CMS | HTML5, CSS3, React (DOM & Native), Next.js, Bootstrap, Tailwind, WordPress, Sanity

Databases & ORMs | PostgreSQL, MySQL, SQLite, MongoDB, Firebase, Prisma, Sequelize

DevOps & Tools | Maven, Gradle, Docker, Git, GitHub, Visual Studio Code, PyCharm, Eclipse/STS

API Development & Testing | REST APIs, Swagger/OpenAPI, Postman, Insomnia

Data Science (AI, Automation & Data) | n8n, Antigravity, Claude Code, Cursor, Pandas, NumPy, Selenium, PyAutoGUI, OpenPyXL, Biopython (Bioinformatics), Excel, Power BI

Architecture & Prototyping (Design) | C4 Model (Context, Container, Component, Code), UML (Sequence, Activity, Use Case, Class, Object Diagrams), Word, PowerPoint, Figma

Agile Methodologies | Scrum, Kanban, Lean IT, Extreme Programming (XP), Hybrid (Waterfall + Agile)

SOFT SKILLS

Communication | English proficiency for technical documentation and international team collaboration.

Technical Communication | Ability to understand business needs and support their translation into technical solutions, using simple diagrams (C4/UML) to aid communication.

Remote Collaboration | Experienced in asynchronous communication, utilizing tools like Teams, Slack, Jira, Trello and Notion to maintain workflow transparency.

Adaptability | Proven ability to pivot between different tech and methodologies based on requirements.

Teamwork & Mentoring | Collaborative approach within Agile squads, including participation in code reviews and technical knowledge sharing.

LANGUAGES

English - Advanced - B2 Level | Cambridge English

Jun, 2024

Brazilian Portuguese - Fluent (Native)

CERTIFICATIONS

CS50's Introduction to Computer Science | Harvard University

Fev, 2026

Oracle Cloud Infrastructure 2024 Generative AI Professional (1Z0-1127-24) | Oracle

Jul, 2024

Oracle Cloud Infrastructure 2023 AI Foundations Associate (1Z0-1122-23) | Oracle

Jul, 2024

Oracle Certified Associate Java SE 8 Programmer I (1Z0-808) | Oracle

Ago, 2023

Python Certified Associate Certified Associate in Python Programming | Oracle

Fev, 2022
