

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorf.casita@gmail.com | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building web and mobile applications using React (DOM & Native), Spring Boot (Monolithic & Microservices), and Node.js. Strong background in Agile development, APIs, and scalable systems. Passionate about clean code and real-world problem solving.

EDUCATION

Bachelor's Degree (Interdisciplinary) in Science & Technology with a Bachelor's Degree (Specialization) in Computer Science **2026 - Present**
Universidade Federal do ABC Santo André, São Paulo

Technical High School in Software Development **2023 - 2025**
ETEC Taboão da Serra Taboão da Serra, São Paulo

WORK EXPERIENCE

Software Developer (Volunteer) **Feb 2024 – Present**
Employer Taboão da Serra, São Paulo

- Designed and developed a **Node.js-based system** to manage academic and administrative school data
- Built **RESTful APIs** and implemented business rules and achievements
- Modeled and maintained the database
- Worked directly with staff to gather requirements and improve internal processes.

PROJECTS

Nexus Evolution Academy | Spring Boot, Hibernate, JWT, Docker, PostgreSQL **Jan 2026 – Feb 2026**

- Developed and maintained a scalable backend platform using **Java and Spring Boot** for an online education system.
- Designed **RESTful APIs** and domain models with **JPA/Hibernate**, ensuring transactional consistency and data integrity.
- Implemented **authentication** with **JWT (Json Web Token)** and **role-based authorization** with **Spring Security**.
- Integrated **Stripe Payment Intents and webhooks** to process secure online payments and manage payment status skills.
- Automated **transactional email workflows** using **Brevo**, improving user communication and reducing manual operations.
- Applied **clean architecture principles**, focusing on maintainability, scalability, and security.

SAGE (Experience as a Developer) | React, Node.js, Express, Parallel Structure **Feb 2024 – Feb 2026**

- Developed full-stack academic management system, improving workflow efficiency by 30%.
- Built React front-end and **Node.js/Express APIs** with scalable, secure architecture.
- Implemented parallel data processing for attendance and scheduling, reducing load times by 40%.
- Integrated authentication and role-based access control for enhanced security.

ECOTECH - (ETEC's Capstone Project) | React Native, Express, Firebase, IoT, GenAI **Feb 2024 – Dec 2025**

- Built a **Node.js + Express REST API** to process e-waste recycling events, user data, and scoring logic.
- Integrated **IoT sensor data** (smart bin, weight measurement) to record recycling transactions in real time.
- Designed **business rules for point calculation** based on waste category and weight, ensuring data accuracy.

Igor Fernando Casita

Junior Full Stack Developer | +55 (11) 93044-2308 | igorf.casita@gmail.com | <https://www.linkedin.com/in/igor-fernando-casita/> | <https://igorfcfs.github.io/Portfolio/>

- Implemented **real-time and offline-sync workflows** using **Firebase Firestore** and **Cloud Functions**.

Microservices Architecture Projects | Java, Spring Boot, JPA, Hibernate, JWT **Feb 2023 – Dec 2023**

- Developed backend services using **microservices architecture**.
- Designed REST APIs with clear service boundaries and domain separation.
- Implemented **authentication** and authorization using **JWT**.
- Applied transaction management and best practices for distributed systems.

TECHNICAL SKILLS

Markup Languages | HTML5 & CSS3

Programming Languages | Java, JavaScript/TypeScript, Python, SQL, C/C++ and C#

Backend & Frameworks | Spring Boot, JavaEE, JPA, Hibernate Node.js, Express.js, Django, Flask

Frontend & Frameworks | React (DOM & Native), Angular, Express.js

Databases & ORMs | PostgreSQL, MySQL, SQLite, MongoDB, Firebase, Prisma, Sequelize

DevOps & Tools | Maven, Gradle, Docker, Git, GitHub, Visual Studio Code, PyCharm, Eclipse, Spring Tool Suite (STS)

API (Application Programming Interface) Development & Testing | REST APIs, Swagger/OpenAPI, Postman, Insomnia

Data & Automation | Pandas, NumPy, Selenium, PyAutoGUI, OpenPyXL, Excel, Power BI.

Architecture & Prototypes (Design) | C4 Model (Context, Container, Component, Code), UML (Unified Modelling Language – Sequence, Activity, Use Cases, Classes, Object), Word, PowerPoint, Figma, Tinkercad.

Agile Metodologies | Scrum, Kanban, Lean It, eXtreme Programming (XP), Hybrid (Laterfall + Agile)

Operational Systems (OS) | Windows, Kali Linux

SOFT SKILLS

Communication | English proficiency for technical documentation and international team collaboration.

Technical Communication | Ability to understand business needs and support their translation into technical solutions, using simple diagrams (C4/UML) to aid communication.

Remote Collaboration | Experienced in asynchronous communication, utilizing tools like Teams, Slack, Jira, Trello and Notion to maintain workflow transparency.

Adaptability | Proven ability to pivot between different tech stacks (Java, Python, Node.js) and methodologies based on project requirements.

Teamwork & Mentoring | Collaborative approach within Agile squads, including participation in code reviews and technical knowledge sharing.

CERTIFICATIONS

Oracle Cloud Infrastructure 2024 Generative AI Professional – 1Z0-1127-24 (2024)

Oracle Cloud Infrastructure 2023 AI Foundations Associate – 1Z0-1122-23 (2024)

Java SE 8 Programmer I (OCA) – 1Z0-808 (2023)

Certified Associate in Python Programming – PCAP (2022)

English – Cambridge B2 (2024)
